Roy Black teaches law students at the University Of Miami School Of Law in advanced criminal evidence. He has been teaching at the University for over 30 years.

He also contributes back to his community as he and his wife host a charity ball for ICARE Bay Point Schools, Inc. Last year the charity ball raised over two million dollars for the boarding school. It is a special school that rehabilitates juvenile delinquents with attention to education, leadership and accountability.

The generous donations to ICARE Bay Point Schools, Inc. allow the school to offer activities and opportunities to the students that they probably wouldn't have received otherwise. There are four areas that the school emphasizes for students: academics, athletics, socialization and vocations. The boarding school incorporates positive peer pressure and strict discipline. Students are rewarded for good behavior. The success rate at this boarding school is miraculous. More than 90% of the students finish high school and become employed in vocational occupations. Many students go on to finish college degrees and enter the work force as professionals. Congratulations to Attorney Roy Black, his firm and his wife Lea for their efforts to support the ICARE Bay Point Schools. Perhaps his community spirit for setting lives of young teens in the right direction is one of his biggest achievements.
